UNITED STATES PROOF SETS.

Superb series, embracing several dates never before offered at auction. All are in proof condition, without scratches or so-called hay-marks, just as they came from the U. S. mint many years ago. Slight discolorations or partial tarnish of the surface will be observed on a number; this could be instantly removed by means of a solution of cyanide of potassium, an acid extensively used by dealers for this purpose; but both the owner and the cataloguer prefer to offer these beautiful specimens of our National coinage without going through this really hurtful and damaging process, leaving the question of its use to be decided after purchase by the buyer himself.

Bids on PROOF SETS are so much per SET, not piece.

COLLECTIONS APPRAISED CASH ADVANCES MADE

SPECIAL NOTICE.

Many changes have lately taken place among Coin Dealers, and it is probable that several who have heretofore received bids for my sales will not, in the future, attend to the needs of their former business.

Considering the fact that I am constantly engaged in cataloguing important Collections, that the properties offered are not my own, as is generally the case with most dealers, but solely belong to some side owners, may I ask collectors who desire to be served regularly with my Catalogues, and who wish to be represented at my sales, to favor me with their correspondence and bids? If so, they are assured of prompt attention, careful purchases at satisfactory prices, and in general an intelligent service.

My terms are: For purchases up to $25, 10 per cent.; for purchases in excess of $25, 5 per cent. I attend to all New York Consignments at the same rates as for my own.
